TOWN OF WESTMINSTER

Westminster Liquor Commission

Meeting Minutes for June 5, 2019

Meeting called to order 3:07 PM, Conference room 102 Westminster Town Hall

Members present; Gary McDonald, Michael Denzer, Allison Streeter

Wachusett Brewing Company employees present: Edward Lafortune, Christian McMahan, Kim Slayton

The Brewery is requesting an issuance of amendment to alteration of premises of the existing license. Attachment B Proposed Section 19 Pouring Permit description was provided with a diagram of the existing (color coded red outline) and the proposed area (color coded in green).

All members questioned the proposed area of the front of the building (State Road East / Rt.2A). A question was raised about the lack of fencing of this section near the road. It was stated that this area would be consistent with the other areas with a split rail fence. There were additional questions from board members of the split rail and not being a sufficient barrier on the road. It was stated (McMahan and LaFortune) that this area would only be used for special events ONLY and that during these events a snow fence barrier would be provided. It was further stated that a recent special fundraising event had a One Day license to utilize this area and the patrons could not enter the brewery to use the facilities due to the existing license.

A motion by Gary McDonald to approve the identified area with the East Rd/ 2A area only used for special events with the addition of snow fencing. The motion was second by Michael Denzer and a 3-0 approval of the motion without dissent.

Meeting adjourned 3:47 PM

Enclosed: Attachment B Description and Proposed Area map
